Simpozionul

Bolile genetice de metabolism în patologia copilului și a adultului,

cu participare internațională,

7-8 iunie 2019, Centrul Medical Imogen, Str. Pasteur f.n.

(lângă Cl. Neurochirurgie)

Eveniment creditat cu puncte EMC.

Coord. științ: Assoc. Prof. Gabriella Horvath (Vancouver), Dr. Paula Avram (Londra), Dr. Laura Damian (Cluj), Dr. Romana Vulturar (UMP Cluj)
Organiz. locali: Romana Vulturar (UMP Cluj-Napoca, Imogen, SCJU Cluj), Dr. Laura Damian (SCJU Cluj), Dr. Adina Chiș (UMP Cluj-Napoca),

7 June 2019

8.30-9,00	***Registration***
9,00-9,15	***Welcoming participants***, messages from UMP Cluj-Napoca, Imogen Center, Cluj County Hospital (Dr. T. Kovacs) Ministry of Health (Dr.Lidia Onofrei), Cluj County Emergency Hospital
9,15-9,35	***Inborn errors of metabolism – a pathology affecting pediatric and adult patients: lessons to learn from several perspectives*** *Romana Vulturar*, Dept. of Molec. Sciences, Univ. of Medicine & Pharm. Cluj-Napoca, Imogen – SCJU Cluj
9,35-10,05	***Metabolic emergencies in pediatrics,*** *Paula Avram*, Pediatric Intensive Care Consultant, Sheffield Children's Hospital, Londra, UK, Director of NGO *'Asociația Șansa unui copil'*
10,05-10,40	***Inborn Errors of Metabolism in adults,*** *Gabriella Horvath*, Clinical Assoc. Prof, Division of Biochemical Diseases - children and adults, Faculty of Medicine, Univ. of British Columbia, Vancouver, Canada
10,40-11,10	***Coffee break***

Simpozionul

Bolile genetice de metabolism în patologia copilului și a adultului,

cu participare internațională,

7-8 iunie 2019, Centrul Medical Imogen, Str. Pasteur f.n.

(lângă Cl. Neurochirurgie)

Eveniment creditat cu puncte EMC.

7 June 2019

11,10-12,00 ***At the interphase of Inborn Errors of Metabolism and spectrum of rare auto-inflammatory disorders***,
Laura Damian, Rheumatology Clinic, SCJU Cluj, Centre for Rare Musculoskeletal Auto-immune and Auto-inflammatory Disorders
Awarding Mrs. Dr. Anca Cristea, a reference name in the introduction of diagnosis of rare diseases with immune mechanism in Romania

12,00-12,40 ***Inborn Errors of Metabolism- implications in Obstetrics-Gynaecology***; ***link with Materno-fetal medicine project***,
Gabriella Horvath, Clinical Assoc. Prof, Division of Biochemical Diseases - children and adults, Univ. of British Columbia, Vancouver

12,40-13,30 ***Lunch***

13,30-12,40 ***Recommendations for the management of Tyrosinemia type I***

13,40 -14,00 ***Early clinical manifestations in mucopolysaccharidosis,***
Camelia Al-Khzouz, Genetic Dept., Children Cluj County Emergency Hospital, University of Medicine and Pharmacy Cluj-Napoca

14,00-14,20 ***Cardiac involvement and enzyme replacement therapy results in children with mucopolysaccharidosis,***
Cecilia Lazea, Ist Pediatric Clinic, University of Medicine and Pharmacy Cluj-Napoca

14,20-14,40 ***Boala Gaucher la pacienții din Romania,***
Simona Bucerzan, Drugan C, Nascu I, Alkhzouz C, Crisan M, Zimmermann A, Lazea C, Lazar C, Popp RA, Miclea D, Asavoaie C, Grigorescu-Sido P., Genetic Dept., Children Cluj County Emergency Hospital, University of Medicine and Pharmacy Cluj-Napoca

Simpozionul

Bolile genetice de metabolism în patologia copilului și a adultului,

cu participare internațională,

7-8 iunie 2019, Centrul Medical Imogen, Str. Pasteur f.n.

(lângă Cl. Neurochirurgie)

Eveniment creditat cu puncte EMC.

7 June 2019

14,40 -15,10 ***Genotype-phenotype evaluations in a group of Phenylketonuria Romanian patients. Is PKU a solved problem?***

Monica Mager (child neurologist –UMP Cluj-Napoca), Romana Vulturar, Steluta Palade, Cristina Pantelimon

15,10-15,30 ***Coffee break***

15,30-16,00 ***Functional tests of variants of unknown significance in Inborn Errors of Metabolism,***

Ana Pop, Drd. Amsterdam UMC, location VUmc, Department of Clinical Chemistry, Metabolic Unit, Amsterdam, The Netherlands

16,00-17,15 ***Workshop, Case discussions***

17,15-17,30 ***Eurordis, Holistic care of patients with rare diseases, Achieving Holistic Person-centred care to leave no one behind***

Dorica Dan, președinte APWR, ANBRaRo

(Alianța Națională pentru Boli Rare România), ARCrare, Board member Eurordis, membra CES, CNBR, coordonator Centrul NoRo

19,00 ***Dinner***

8 June 2019

8.30-9,00 ***Registration, Welcoming participants***

9,00-9,30 ***Deep Brain Stimulation in pediatric movement disorders, focus on inborn errors of metabolism***

Laura Cif, Université de Montpellier, France

9,30-10,00 ***Organic acidurias,***

Paula Avram, Paediatric Intensive Care Consultant, Sheffield Children's Hospital, London, UK, Director Non Guvern. Organization *'Asociația 'Șansa unui copil'*

10,00-10,40 ***Screening and recommandations in treatable metabolic disorders,***

Gabriella Horvath, Clinical Assoc. Prof, Division of Biochemical Diseases - children and adults, Faculty of Medicine, Univ. of British Columbia, Vancouver, Canada

8 June 2019

10,40-11,10	***Expanded Newborn screening: implications and goals, simple or complex?*** *Isabela Țârcomnicu,* Cytogenomic Medical Laboratory, București
11,10-11,40	***Coffee break***
11,40-12,15	***Urea cycle disorders: from diagnosis to recent advances***, *Emanuela Manea*, Paediatric Consultant with interest in Metabolic disorders, Great Ormond Street Hospital for children, London, UK
12,15-12,30	***Treatment in hyperammonemias***
12,30-13,00	***Approach to neurometabolic disorders manifesting with epilepsy and movement disorders,*** *Gabriella Horvath*, Clinical Assoc. Prof, Division of Biochemical Diseases - children and adults, Faculty of Medicine, Univ. of British Columbia, Vancouver, Canada
13,00-14,00	***Lunch***
14,00-14,20	***From Bed to Bench and Beyond: our experience in diagnostic of small molecules defects, including NMR spectroscopy method*** *Romana Vulturar*, Alina Nicolescu, Adina Chiș, Călin Deleanu (UMP Cluj - Biospectroscopy Group Iași-Buc)
14,20-14,40	***X-linked hypophosphatemic rickets – diagnosis and current standard of care*** *Daniela Iacob*, IIIrd Pdiatric Clinic, University of Medicine and Pharmacy Cluj-Napoca
14,40-15,00	***Multidisciplinary approach to early diagnosis of rare diseases. Case report,*** *Bogdan Chiș*, Adult IInd Medical Clinic, SCJU Cluj
15,00-15,10	***Deficiency of alpha – manosidase, a treatable disease?*** *Romana Vulturar*
15,10 -16,00	***Workshop, Case discussions*** ***Concluding remarks***
18,00	***Dinner***
